NEW TRACKS TO CHALLENGE THE MOST EXPERIENCED PLAYER.

Pole Position II brings back the challenge. It's the Enhancement Kit that puts you ahead of the pack. It's designed specifically for adaptation to both sidwown and upright Pole Position games.

Three all-new tracks plus the proven appeal of the original make Pole Position II an accelerating new profit opportunity for your business.

Whatever track is selected, Pole Position II is still that incredibly realistic test of driving skill with the added appeal of exciting new background scenes, richer detailing of cars, explosions that leap off the track, new special effects like the actual sound of tires bouncing on the

track after a collision. Just to name a few.

So shift into Pole Position II. It's a high-performance package that will bring both old and new fans racing in to any location. Get on the track to more profits.

The kit includes electronics, an instruction manual, plus all the visual materials you need.

Cockpit model: 4 side panel decals, glass monitor shield, rear panel decal, and 2 control panel patch decals.

Upright model: 2 side panel decals, glass monitor shield, glass attraction panel, and upper control panel decal.
